LEGISLATIVE PROPOSALS

At its May, 2006 meeting, the Committee approved for transmittal to the 2006 session of the General Assembly the following proposals:

Proposal #1

DOT Contract Provision Changes

Draft # 2005-RWz-40

Proposal #1 amends current law governing use of alternate contract provisions in DOT contracts. NC DOT is authorized by federal law (23 C.F.R. § 635.109) to use alternative contract provisions for differing site conditions, suspensions of work ordered by the engineer, or significant changes in the character of the work, if the alternative contract provisions are required by State law.

Section 1 of this proposal modifies the State law requirement to use alternate contract provisions in two ways: by correcting a federal Code reference and by changing the source of the alternative contract provisions to provisions developed by NC DOT and approved by the Board of Transportation.

Section 2 of this proposal provides that it would become effective July 1, 2006.

Proposal #2

DOT Secondary Road Formula Change

Draft # 2005-RWz-41

Section 1 of this proposal amends the secondary road construction formula, which was revised in 2005 (HB 750, S.L. 2005-404), to add paved road mileage in the denominator of the formula.

Section 2 of this proposal provides that it would become effective July 1, 2006.

Proposal #3

DOT Performance Based Maintenance Contracts Bonds

Draft # 2005-RWz-42

Section 1 of this proposal authorizes DOT to modify the bonding requirements for two specific performance based contracts for routine maintenance and operations authorized by a 2005 budget provision (Section 28.10 of S.L. 2005-276).

Section 2 of this proposal provides that it would become effective July 1, 2006.

Proposal #4
DOT General Contractor License Exceptions
Draft # 2005-RWz-43

Section 1 of this proposal exempts DOT contracts for: (1) routine maintenance and minor repair of: pavements, bridges, roadside vegetation and plantings, drainage systems, concrete sidewalks, curbs, gutters, and rest areas; and (2) installation and maintenance of: pavement markings and markers, ground mounted signs, guardrail, fencing, and roadside vegetation and plantings from the general contractor licensing requirements of Article 1 of Chapter 87.

Section 2 of the proposal is a cross reference to the exception in Article 1 of Chapter 87.

Section 3 of this proposal provides that it would become effective July 1, 2006.

Proposal #5
Repeal Toll Bridge Authority
Draft # 2005-RWz-45

Section 1 of this proposal repeals the North Carolina Bridge Authority (Article 6F of Chapter 136) and the authorization for NC DOT to issue a private pilot toll project license (Article 6G of Chapter 136).

Section 2 of this proposal provides that it would effective become when it becomes law.
